

ABOUT US

IMPACT was formed in 2005 for the purpose of creating an alliance of motorcoach operators in the Northeast region of the United States. From our founding meeting, we have grown to represent 11 carefully selected companies with a collective fleet of over 200 full-size motorcoaches and many other vehicles.

OUR STRUCTURE

IMPACT members meet collectively on a quarterly basis to discuss trends in the industry, joint marketing, expense control, and training opportunities. Individual members interact regularly on an informal basis.

**Reliable.
Dependable.
Consistent.**

Group Transportation Specialists
Serving: Tour Operators · Event Planners · Corporations
Professional and Collegiate Athletic Teams
Universities · Airlines · Cruise Lines · And More

WHY USE IMPACT?

EXTENSIVE FLEET

With current membership, IMPACT offers a fleet of over 200 full-size motorcoaches, mid-size motorcoaches and mini-coaches in addition to school buses, vans, sedans, etc. IMPACT members rely on each other's equipment and regularly refer service opportunities to each other. If you need to transport people, chances are an IMPACT member has the vehicle you'll need, or will help you secure one from another reputable company.

PERSONAL SERVICE

When you choose to work with IMPACT, you are not dealing with a corporate office or an impersonal staff. You are working with the people closest to the operation who will guarantee that every detail of your service will be addressed. IMPACT members take pride in the service they provide and work closely with each other to ensure complete customer satisfaction.

GEOGRAPHIC ADVANTAGE

IMPACT members are strategically positioned and ready to provide service from New England through the Mid-Atlantic Region...but it doesn't stop there! IMPACT members will provide service wherever dependable group transportation is needed.

EXPERIENCE & REPUTATION

IMPACT companies have been satisfying customers for a long time...as far back as the 1920's. Each member has an outstanding reputation in the group transportation industry, providing service for tour operators, event planners, professional and collegiate athletic teams, corporations, universities, airlines, etc. Many members hold positions on the boards of directors for various industry associations.

SAFETY & MAINTENANCE

The Federal Motor Carrier Safety Administration (FMCSA) requires that motorcoach companies comply with specific regulations and standards regarding safety. IMPACT members work hard on a daily basis to ensure that their operations meet or exceed those standards. In fact, their efforts go beyond safety. Customer comfort and convenience, as well as equipment appearance, are equally as important to IMPACT. In the event that something unexpected should happen while on the road, the network of members and support personnel work together to minimize any negative effect on your travelers.

PEACE OF MIND

You can count on IMPACT to be reliable, dependable, and consistent. IMPACT is simply a network of responsible transportation professionals that stand behind their word.
